***Response to Amendment***

1. The amendment, filed 10/20/2009, has been entered and made of record. Claims 1-15 are pending.

***Response to Arguments***

2. Applicant's arguments, filed 10/20/2009, with respect to the rejection of claims 1-15 have been fully considered and are persuasive. The rejection of claims 1-15 has been withdrawn.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1 and 5 recite the limitation "the predetermined resolution" in lines 12 and 15, respectively. There is insufficient antecedent basis for this limitation in the claims.

5. Claims 1 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationship is "a resolution changing section."

The omission of the limitation "a resolution changing section for changing a set resolution of the plurality of frames in accordance with the amount of shaking motion" in claims 1 and 5 amounts to a gap between the added limitation "wherein a set resolution is reduced to a predetermined resolution, after which, a frame rate for taking a plurality of frames is increased" and the other existing claimed elements. It is suggested that the limitation "a resolution changing section for changing a set resolution of the plurality of frames in accordance with the amount of shaking motion" is added to the independent claims 1 and 5 to obviate this rejection.

Claims 2-4 and 6-14 are rejected as being dependent upon the rejected claims 1 and 5, respectively.

6. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted step is “changing a resolution.”

The omission of the limitation “changing a resolution of the plurality of frames in accordance with the amount of shaking motion” in claim 15 amounts to a gap between the added limitation “reducing a set resolution is reduced to a predetermined resolution, after which, increasing a frame rate for taking a plurality of frames” and the other existing claimed elements. It is suggested that the limitation “changing a resolution of the plurality of frames in accordance with the amount of shaking motion” is added to claim 15 to obviate this rejection.

### ***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2622

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
